

Governor Malloy, State Legislators, & State Tax Panel Members:

WOW! I cannot even believe Governor Malloy, Legislators and State Senators have to even ponder the question of too much taxation in the State of CT .

I saw a perfect Billboard~~Leaving the State of CT??? Is it something we Taxed???

In this State, citizens are leaving the State in record numbers and no matter where you go there are For Sale Signs all around the State. When I ask family and friends why are you moving the common answer is because this State is taxing us to death!

It is time for the Governor and all Legislators to Stop, Look and Listen! Wake up! It is about time you start honestly serving the Citizens who elected and trusted you to look out for their best interests instead of what is best for yourselves!

Extremely disheartened by the actions of this Governor and the State Legislature!
